

# 2015 CEV VOLLEYBALL EUROPEAN LEAGUE WOMEN

LEAGUE ROUND, POOL A  
GRE-GEO  
4<sup>th</sup> LEG

## Bulletin N° 1

HELLENIC VB FEDERATION

Women 4<sup>th</sup> Leg, 21/22 August 2015 Megalopolis, Greece

**OFFICIAL FOREWORD BY CEV PRESIDENT ANDRÉ MEYER**

Ladies and gentlemen,  
Dear Volleyball fans,

The 2015 edition of the CEV Volleyball European League is set to provide all of you with another few weeks of world-class matches all the way through to the Final Round.

There is a number of good reasons for you to closely follow this year's campaign especially since some of the participating teams will be using the European League as an opportunity to continue with their preparations for the major highlight of the 2015 season, i.e. the Final Round of the CEV Volleyball European Championship that Bulgaria/Italy will be co-hosting later this year.

As far as the starting field of the 2015 edition is concerned, I am particularly pleased to welcome back the national team of Estonia whose last appearance in the European League dated back to 2006. On top of this, Belarus, Croatia and Israel are also all returning to the stage of the European League, thereby further cementing the importance of this competition and its appeal for up-and-coming national teams that are wishing to move one step further in their effort to join the international elite.

The winners of the 2014 edition, Montenegro, have joined the FIVB Volleyball World League following their historic success from last year but all remaining three semi-finalists – Greece, Slovenia and the F.Y.R. of Macedonia – are back in action as they are surely determined to improve on the results they achieved last year.

I am therefore particularly pleased with the line-up we have put together for this year's European League. Once more, this competition will provide every participant with an opportunity to develop their national teams, to play high-quality matches and vie for a spot in the next edition of the World League which is an additional boost of motivation for up-and-coming Volleyball powers to continue with their efforts and hard work in order to join the world's elite.

As the European League confirms its status as the perfect platform for emerging national teams where to test their likes on the international stage, improve on their skills and build up ahead of the next major events, I would like to thank all organizers for their hard work and commitment in staging the preliminary rounds that are scheduled for the month of July.

Wishing lots of emotions and a memorable Volleyball experience to all involved,

Yours sincerely,

André Meyer  
CEV President

## 1. WELCOME TO GREECE

Greece and all its bodies involved in the organization of the home matches of Pools A of the 2015 CEV Women Volleyball European League are very pleased to welcome all teams, referees and officials in Greece.

The Hellenic Volleyball Federation and the local organizer will do their best to provide you a nice stay and wish all teams the best success possible.
